

## IT-INHOUSE CONSULTANT FOR LOGISTICS (M/F/X)

Blum produces lift, hinge and pull-out systems for furniture that are delivered to more than 120 markets. Did you know that we employ around 350 IT specialists to take care of our modern IT environment?

### YOU WILL

- ... work closely on IT applications together with our internal experts and external partners, from design to launch
- ... have a desire to prove yourself in the field of IT project management and implement national and international projects over the coming years
- ... help to determine the further development of IT applications (BrowserBasedApplication (BBA) or SAP EWM) in logistics over the coming years

### WE

- ... are looking for a committed team member who inspires us with their structured, constructive and team-oriented way of working
- ... attach importance to good education – you will have a relevant training background (e.g. business IT), and/or professional experience
- ... are an international company – effective communication in (German) and English is important to us
