

FHV DUAL STUDY PROGRAM IN INDUSTRIAL ENGINEERING LOGISTICS/SCM

Blum is an innovative family-owned company with an international market presence that develops high-tech furniture hardware for modern living environments. Did you know that learning on the job is particularly important to us? Students of industrial engineering directly apply their academic knowledge to practice in our company.

YOU

- ... learn the fundamentals of demand-oriented production planning in stock and make-to-order manufacturing
- ... gain deeper insight into manufacturing control
- ... understand the reasons for inventory in logistics/SCM
- ... have an understanding of the use of modern ERP and planning systems

WE

- ... are looking for a motivated team member who meets the entry requirements of the Vorarlberg University of Applied Sciences for the "WING" degree program
- ... offer you varied and challenging tasks in the field of logistics/SCM
- ... enable you to develop your logistics/SCM skills in an international environment
- ... offer you the opportunity for a semester abroad in coordination with the degree program leadership
