

### 3D MEASUREMENT TECHNICIAN WITH EXPERIENCE (F/M/X)

Blum manufactures flap, hinge, pull-out, and pocket systems for furniture, which are delivered to over 120 markets. Did you know that we use state-of-the-art measuring tools for our series monitoring? We create automated measuring programs for coordinate measuring machines, 3D scanners, and computer tomographs.

#### YOU

- ... develop metrological solutions together with quality and manufacturing engineering and coordinate these within the team
- ... independently program CNC measuring programs for automated measuring operations
- ... are responsible for the commissioning of the measuring programs in our manufacturing plants
- ... support both the technical department and our production in metrological matters

#### WE

- ... place importance on a completed technical education, such as HTL, vocational school, or apprenticeship – relevant education is an advantage
- ... offer challenging tasks, therefore you bring job-specific professional experience in the field of metrology
- ... work with the latest software – ideally, you have good PC skills and have already worked with metrology software for several years
- ... are looking for a team member who works both independently and self-reliantly, as well as solving challenges in a team
