

IT-INHOUSE CONSULTANT FOR MM/PP (M/F/X)

Blum produces lift, hinge and pull-out systems for furniture that are delivered to more than 120 markets. Did you know that we employ around 250 IT specialists to take care of our modern IT environment? Our IT project managers provide the IT know-how to support staff at our head office in Vorarlberg and our 31 subsidiaries.

YOU WILL

- ... work on interdisciplinary projects related to material and production planning for our products in our global supply chain
- ... make a significant contribution to determining the application landscape in materials management over the coming years
- ... work closely with our internal experts and external partner companies – from the idea, analysis and development through to the go live
- ... work predominantly with SAP MM/PP, SAP APO (PP/DS and SNP), SAP IBP and associated systems
- ... be curious to know more, so why not watch a short introduction into the responsibilities of an in-house IT Consultant at Blum with Clemens, Alexandra and Wouter: <https://youtu.be/M6KFH4tJnZw>

WE

- ... are looking for a team member who is quick and motivated to get the job done – you will have knowledge and experience of the SAP MM/PP environment (SAP APO, SAP S/4 and IBP are advantageous)
- ... attach importance to good education – you will have at least 1-2 years of professional experience or a relevant training background (e.g. business IT)
- ... are an international company – effective communication in (German) and English is important to us
- ... are looking for a committed team member who is happy to assist in creating a pleasant working atmosphere and inspires us with their structured, constructive and team-oriented way of working
