

ELECTOTECHNICIAN AUTOMATION TECHNOLOGY (F/M/X) - LOCATION BREGENZ

Blum is a family-owned company with 6 production facilities in Vorarlberg. Did you know that we produce millions of hinge, pull-out, flap, and pocket systems for furniture every week, which are delivered worldwide? In our production facilities in Vorarlberg, we employ staff from over 60 different nations who work on state-of-the-art equipment.

YOU

- ... as an electrical technician/control technician, take care of the maintenance, servicing, and optimization of the electrical part of our operating equipment in shift work and contribute your ideas
- ... efficiently search for possible errors in the event of electrical faults and correct them independently
- ... are involved in various project teams and contribute your expertise from the fields of electrical and automation technology
- ... document your findings, helping us to optimize the electrical systems

WE

- ... value good education in the field of electrical engineering – ideally, you have successfully completed an apprenticeship, HTL, or vocational school
- ... rely on your expertise – you have PLC knowledge, and logical thinking comes naturally to you
- ... count on a structured way of working and are looking for a team member who enjoys working independently
- ... are constantly evolving – the current expansion of our modern production facility offers many development opportunities
- ... are looking for electrical technicians for different production areas where you can develop and specialize
